CSVT Update for Upcoming Week ***Traffic Stops Continue During Night Work on Route 15***

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Winfield Interchange:

Night work continues on the bridge spanning Route 15. The contractor will be setting beams and constructing forms. This work will be performed nightly through the week from 9 PM to 6 AM and will require multiple traffic stops of up to 20 minutes in each direction. There will be delays. Motorists should consider alternate routes or plan more time for their travels.

Route 15 northbound remains reduced to a single lane so the contractor can complete reconstruction of the highway. Traffic has been shifted to the center lane of the highway. County Line Road east of Route 15 is closed. A detour is in place using Grangers Road and Line Road.

Wide loads over 14 feet are prohibited in the northbound direction. The single lane condition is expected to remain in place for most of the construction season. The southbound passing lane will be closed during the day for the northbound reconstruction work.

Northumberland County:

Work on the southbound bridge spanning Chillisquaque Creek continues. Work at this location will result in increased construction activity on Hidden Paradise Road. Flaggers will provide traffic control as needed. Route 147 traffic is using a temporary crossover to the new northbound bridge over Chillisquaque Creek.

There also will be work on the bridge spanning Ridge Road. There will be flagging on Ridge Road when work is over the travel lanes.

River Bridge:

Construction of Piers 3 through 8 and Abutment 1 are complete. Construction continues on Piers 1 and 2. Concrete is scheduled to be placed for Pier 2 next week.

Erection of steel girders on Span 7 is expected to continue next week.

The causeway tentatively is expected to be transitioned to the north side of the river in late July or early August.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 860 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
