CSVT Update for Upcoming Week ***County Line Road East of Route 15 to be Closed***

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Winfield Interchange:

Route 15 northbound remains reduced to a single lane so the contractor can complete reconstruction of the highway. Weather permitting, traffic is expected to be shifted to the center lane next week. County Line Road east of Route 15 will be closed when the shift is implemented. An approximately 10-week detour will be in place using Grangers Road and Line Road.

There will be short-term closures at night on Route 15 while the contractor removes the temporary bridge spanning the highway.

Work will continue on the County Line Road bridge, the bridge spanning Route 15 and the interchange ramp bridge.

Wide loads over 14 feet are prohibited in the northbound direction. The single lane condition is expected to remain in place for most of the construction season. The southbound passing lane will be closed during the day for the northbound reconstruction work.

Drainage and earthwork operations will continue during daylight hours only.

Northumberland County:

Work on the southbound bridge spanning Chillisquaque Creek, the bridges over Wooded Run and the bridges spanning Ridge Road is continuing. Route 147 traffic is using a temporary crossover to the new northbound bridge over Chillisquaque Creek.

Intermittent traffic stoppages are expected on Ridge Road on the north side of the bridge.

River Bridge:

Construction of Piers 3 through 8 are complete. Construction continues on Piers 1 and 2 and Abutment 1. Concrete is scheduled to be placed for the abutment and Pier 9 caissons next week.

Beam setting is complete for Span 5 and Span 6. Steel girders have been delivered for Span 7. Erection is expected to begin within the next several weeks.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 860 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
