CSVT Update for Upcoming Week

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

River Bridge:

Construction of Piers 2 through 8 are complete. Construction continues on Piers 1, 2, 9, 12, 13 and 14.

Steel girders are set on spans 5 through 8. Erection of span 4 will begin next week.

The causeway is expected to be transitioned to the north side of the river within the next three weeks. Work will be performed day and night. Boaters are advised to avoid the area.

Winfield Interchange:

Work will be performed on the bridges over existing Route 15 overnight next week. Delays are anticipated.

Route 15 northbound remains reduced to a single lane so the contractor can complete reconstruction of existing Route 15. Traffic has been shifted to the center lane of the highway.

Wide loads over 14 feet are prohibited in the northbound direction. The single lane condition is expected to remain in place for most of the construction season. The southbound passing lane is closed for the northbound reconstruction work.

Northumberland County:

The contractor will be working on the Route 147 southbound bridge over Chillisquaque Creek and the bridge over Ridge Road. Concrete will be placed for the deck on the bridge over Ridge Road.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic

delay warnings, weather forecasts, traffic speed information and access to more than 860 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
