CSVT Update for Upcoming Week

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Winfield Interchange:

A long-term lane restriction is in place on Route 15 south of Winfield near County Line Road. A 13-foot width restriction is in place. The lane restrictions are needed to reconstruct sections of existing Route 15.

The contractor will perform work on the substructure of a temporary bridge over Route 15, as well as drainage work on both sides of the highway.

Northumberland County:

There will be single lane conditions under daylight flagging on Route 147 while beams are set at the bridge over Chillisquaque Creek. This work is expected to begin Wednesday, September 20, and be completed Tuesday, September 26.

Traffic on local roads under the bridge will be stopped intermittently for up to 15 minutes at a time. Motorists should take alternate routes to avoid delays.

Bridge, drainage, excavation and embankment work continues throughout the project limits.

River Bridge:

Construction of the river bridge piers on the west side of the river continues.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 825 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
